

QuitManager

THE STOP SMOKING DATABASE

Faster / Easier / Better

New Features Include:

- Text Messaging Capability
- Digital Pen Integration

Helping you, helping your clients quit

The market leading data collection,
reporting and service management tool

Let QuitManager take the strain of your data collection and reporting

- QuitManager was developed by a steering group of key stakeholders in NHS stop smoking services and is designed to meet the exact needs of today's service.
- Developed using the very latest Microsoft technologies, QuitManager provides a highly reliable platform that can be simultaneously accessed by a number of users.
- Now rigorously tried and tested, QuitManager is being used by more than 50 PCTs and all of Wales.
- North 51 is fully committed to the ongoing development and improvement of QuitManager. New features and modules will be continually available.
- QuitManager can automate all client referrals generated by calls made to the National NHS Smoking Helpline.

QuitManager provides an ever growing list of features and tools

- **New!** SMS text messaging features enable cost-effective and efficient client contact and support.
- **New!** Fill in your forms and upload the data from the pen to QuitManager with integrated digital pen technology.
- QuitManager access can be given to all those delivering the Stop Smoking Service.
- QuitManager's intuitive interface collects all the requirements of the Gold Standard Monitoring form and your quarterly reports are only ever one click away.
- QuitManager can be mapped to your service, enabling you to manage appointments for your one-to-one support, drop-ins, groups, telephone support and couple/ family services.
- The QuitManager follow-up and call-back alerts support users in the management of their clients.
- QuitManager can automate your Pharmacy Invoicing.
- QuitManager offers a sophisticated reporting suite that delivers standard and bespoke reports.

Join our increasing list of satisfied clients:

“The old database didn’t help us to monitor clients over time, or our effectiveness. QuitManager enables our administrative and specialist staff to know what each client has received and when. It is making it possible for the PCT to manage the service actively and evaluate each aspect of what we do.”

Chris Spencer-Jones, Director of Public Health, South Birmingham PCT

“For us, QuitManager is simple, easy and our advisors love it.”

Josephine Edun, Public Health - Stop Smoking Services, Lewisham PCT
