

Online document management, project management and information sharing with one simple, secure solution.

Be connected. Miles from the team, close to the project.

ShareWith™
simply safely securely

ShareWith™ is designed and developed by north 51

Be involved. Ever felt isolated in a project? Not anymore.

“ShareWith™ enables organisations to deploy and manage single or multiple secure online areas for staff, clients, partners and suppliers. Simple and intuitive document management tools allow multiple file types to be published and managed.”

Secure extranets

Create secure areas in seconds, add new users and grant the required levels of access.

Secure project rooms

Open an e-room and enable a tightly defined team of users to freely collaborate on projects.

Secure document management

ShareWith's comprehensive document management functionality, includes version control and workflow.

“Do customers or co-workers keep asking for updates, reports or documentation, draining the valuable resources you have at your disposal?”

Enable them to quickly and easily access the information they need, leaving you and your team to concentrate on delivery.

ShareWith™ is designed and developed by north 51

Be available. Ensure your customers are only ever a click away from an update.

“Timely and effective communication can make or break the success of a project. In many cases, a client’s opinion of a project is as much about how they were communicated with, as the actual deliverables.”

Provide an extraordinary level of online communication for staff, clients, partners and suppliers.

Align ShareWith™ to your business processes and terminology for a totally tailored fit.

Users are only ever one click away from the latest documents, news, or project developments.

Maintain an ongoing shared understanding by establishing a central record of interactions and decision making, including email alerts for key documents.

“Can misunderstandings occur due to the changing nature of projects and lack of version control on documentation?”

Maintain a fully up-to-date record of every project twist and turn, limiting the risk of confusion.

Be efficient. Less travelling.
Fewer meetings. Less is more.

About north 51 e-business

■ Quality people

Our design and development team have been hand-picked from some of the UK's leading IT companies; each has experience of developing solutions for corporate and blue-chip clients.

■ Quality processes

We design and develop to a state-of-the-art process that drives teamwork, maximises project success and mitigates risk.

■ Quality systems

We are ISO 9001 accredited, which means that our business systems have been judged to be robust, demonstrate traceability and are geared towards measuring and maintaining an evolving and consistently high level of service provision.
